

Your Prediabetes A1C Screening Pilot Training

Welcome Aboard

The VSP® Prediabetes A1C Screening Pilot training will be provided through Premier Academy360™, VSP's eLearning platform, allowing you to take these short courses when it's convenient for you. The training courses provide an overview of the pilot process and patient experience, performing A1C screening tests, as well as the administrative tasks of the pilot. We recommend that you and at least one person from your staff complete the courses. Completion of the training is required prior to beginning the pilot in your practice.

Premier Academy360 Access

- **For New Users:** An email from academy360@vsp.com will be sent to you with information to access the eLearning platform including new login information to begin your assigned courses.
- **For Current Users:** An email from academy360@vsp.com will be sent informing you of your newly assigned courses. Log in using your current credentials.

Once you log in, click on 'My Courses' to view and begin your assigned courses. Review the required courses below.

Your eLearning Courses

	Prediabetes A1C Screening Pilot courses (1 hr) <ul style="list-style-type: none"><input type="checkbox"/> Part 1- Pilot Overview and Patient Experience (15 min)<input type="checkbox"/> Part 2- Pilot Materials and Administering the A1C Screening (15 min)<input type="checkbox"/> Part 3- Submitting Data and Getting Paid (15 min)<input type="checkbox"/> Part 4- Discussing Patient Results and Referral Process (15 min)

TIPS—Practice Makes Perfect!

- Get started right away. Once you begin your online courses, your A1C Screening Test Kit will be mailed to your practice.
- Stay Sharp! Review and practice what you're learning after each session.
- Designate one staff member to be the point person for the pilot. They can take the lead on ordering additional supplies and staying on top of the pilot tracking.
- Allocate time to discuss the pilot with the entire office prior to launch to ensure everyone understands their role.
